

ELECTRICAL SAFETY & FIRST AID REFRESHER COURSES

Date: 12th June 2020

As part of its Health & Safety obligations DNA Electrical will maintain a register of all electrician's Practicing License expiry dates and due dates for the bi-annual electrical safety refresher courses that need to be attended

This register will be checked throughout the year to identify when we need to co-ordinate with you to have you booked on a refresher course.

Our preferred electrical safety and first aid refresher course provider will be Site Safe. This will give you Site Safe status which is required before you can gain entry to some larger commercial sites.

Our office will book you onto your refresher course and forward you all necessary details.

- DNA Electrical will pay the cost of the refresher course for you as well as any wages you would have earned during the course time.
- The Electrician will be responsible for paying their bi-annual registration fee with the EWRB

Whilst we endeavor to maintain accurate records and notify you in a timely manner it shall be the Electrician's responsibility to ensure their practicing license is current and therefore refresher course and first aid training is up to date.
